The Blairmore Hardware Co.

BLAIRMORE, ALBERTA

So much attention is nowadays paid to the enforcement of the Alberta Liquor Act that one would imagine the tearing of worthless cheques no longer a crime.

The snow storms of the past week have placed the road to Coleman in an almost impassable condition in places. It is expected, however, that auto traffic will be resumed in a few days.

BELLEVUE IN FOR PROVINCIAL CHAMPIONSHIP

In the semi-finals between Medicine Hat and Bellevue, the latter team was easy the winner. At the Hat the score was 7-3 in favor of Bellevue, and at Blairmore last night the score was in Bellevue's favor by fourteen to six, while if Bellevue had played regular Crows' Nest Pass hockey in the final period, instead of assisting the Hat to find the net, the result might have been 20 to 1. Bellevue has now elected to play for provincial amateur championship and it is generally believed that they have all the nettle necessary to land the honors.

COAL PRODUCTION

LESS THAN IN 1920

Alberta produced 5,927,270 tons of coal last year. Of this amount 3,429,960 tons were consumed in the province; 1,914,156 tons were sold for consumption outside the province and 133,833 tons for consumption in the United States.

During the year 333 coal mines, two shale mines and one copper mine were in operation. Ninety coal mines were opened during the year, seventeen re-opened and seventy abandoned. In addition thirty-three mines closed in 1920 were abandoned and forty-three were temporarily closed.

During the year twenty-one persons lost their lives from accidents, as compared with twenty-nine the previous year. The most serious accident was in Mountain Park mine, two being killed and six seriously injured by a gas explosion.

The output for the year from Alberta mines was 981,652 tons less than in 1920.

The number of persons employed in mines in December, 1921, was 12,204, or 143 less than in December, 1920.

DEATH OF MRS. FRED PADGETT

Four times during the past four weeks the Angel of Death has visited the village of Bellevue, and on each occasion has taken therefrom a mother upon whom a number of children were dependent.

It is with sincere regret that we this week have to chronicle the death of Lily, beloved young wife of Fred Padgett, who died at an early hour on Saturday morning, following a very brief illness.

Mrs. Padgett was one of the most popular and accomplished ladies of the community and will be very keenly missed by all. As a citizen she was ever active in anything that lent for the happiness of her home and the betterment of the community. She was an energetic worker with the Ladies' Aid of the Church and a devoted member of Ray of Hope Rebekah Lodge, with which she was acting this term in the capacity of Noble Grand. She leaves, besides her husband, two small children, the youngest but a few days old.

Interment took place on Sunday afternoon, being largely attended. A service was held at the Methodist church by the Rev. H. Peters and the remains were laid to rest in the new Bellevue cemetery. The funeral arrangements were in charge of Undertaker Ferguson, of Blairmore, and the members of various branches of the I. O. O. F. attended in large numbers.

With the bereaved husband and relatives we join in sincerest sympathy.

Following is a list of floral offerings: Wreaths—Mr. F. Padgett and Mr. Bell, Mr. and Mrs. A. Padgett, Ray of Hope Rebekah Lodge, Crowview Rebekah Lodge, Blairmore Lodge No. 68, I.O.O.F., Bellevue Horticultural Society, Bellevue I.O.O.F., Members Methodist Church, Mr. and Mrs. S. Berry, Mr. and Mrs. T. Bradley, Mr. and Mrs. W. R. Wain, Mr. and Mrs. E. G. Coestich, Mr. and Mrs. A. B. Carr, Mr. F. Utley, M. Hard and J. J. McIntyre; Dr. and Mrs. N. T. Beema, Mr. J. LECTURE ON SCOTLAND

A pleasant two hours were spent by about one hundred people amidst some of the real historic and beauty spots of Scotland on Monday night. It seemed to some of the oldtimers that in a flash they were carried back to the scenes of their childhood days. Magnificent lantern slides illustrated a very interesting and powerful lecture delivered at the Union church by Rev. Professor D. A. Cameron, M.A., of Alberta University.

Mr. Cameron was pleased to have the opportunity of renewing his many

intimate acquaintances while here. Most of the scenes and the greater portion of the lecture surrounded the life of Sir Walter Scott. Mr. Cameron promised to return at a later date, when he would deal more with such characters as Robbie Burns.

RED CROSS REPORT

The fund for the clothing relief in rural districts of the province is slowly gaining. Donations should be sent to the nearest Red Cross unit, or to the Provincial Headquarters, this week's issue.

O'quillvan Block, Calgary. The following contributions have been received:

Previously acknowledged	\$1362.1
Cumberland school district	39.00
Coleman Red Cross	5.00
Susan Brown, Queenstown	10.00
Granum Red Cross	50.00
Edmonton Red Cross	5.00

Total \$1474.40

We regret that a piece of made poetry is crowded this week's issue.

The Saskatchewan Legislature

The Legislatures of the three Prairie Provinces, meet in session, as a rule, about the same time each year, but while those of Alberta and Manitoba are still in session at the time of writing, Saskatchewan's law makers have completed their labors. At this time, to an even greater extent than in usual years, the members of the Legislative Assembly in all three Provinces are confronted with many of the same problems, and it will be a matter of some interest, therefore, to follow the course pursued by the several bodies in grappling with the difficulties which confront them in common.

Foremost among the problems which demanded attention at Regina, and which likewise call for consideration at Winnipeg and Edmonton, is that of finance. In other words, devising ways and means whereby a sufficient revenue can be raised to meet necessary expenditures, or, on the contrary, reducing expenditures without seriously interfering with efficiency in administration and without neglecting the needs of the country, as to bring the Provincial budget within the total of revenue obtainable.

In the Prairie Provinces, Provincial Treasurers are badly handicapped when it comes to increasing revenues as the instruments for so doing that are available to them are few in number and limited in their operations. Unlike the older Provinces, the Prairie Provinces do not enjoy ownership and control of their natural resources, nor is there that accumulated wealth in this new country which is to be found in the older settled parts of Canada and which through succession duties and corporation taxes is made to yield a substantial Provincial revenue. Ontario, for example, is reported to have profited to the extent of \$1,500,000 from succession duties alone this year, where as the amount so obtainable in Saskatchewan is a mere bagatelle.

It was natural, therefore, that the Saskatchewan Legislature should again and most vigorously voice a demand for the transfer of the natural resources of the Provinces to the local Government, and the sister Prairie Provinces can be depended upon to join in the demand. Such a transfer must soon be effected, if a serious financial situation is not to become acute, and a still stronger feeling of irritation against the older Provinces develop because of a sense of the injustice now suffered by the West.

Nothing startling in the way of augmenting the revenue was considered in Saskatchewan; rather an attempt was forecasted of endeavoring to reduce expenditures to the lowest possible point consistent with efficiency and proper administration. The idea of imposing a Provincial income tax has not met with favor in Saskatchewan in view of the fact that it would mean a triple income tax, such taxes being already levied by the Dominion and city and town municipalities.

A second outstanding problem which demanded attention at Regina, and is also to the fore in the Provinces to the east and west, was the proper enforcement of the prohibitory liquor laws. Penalties were made on the Government to abandon the present Saskatchewan Temperance Act and to revert to the policy of restricted sale of liquor by the Government itself. To all such demands the Government and Legislature turned a deaf ear, and the view prevailed and was overwhelmingly sustained that every effort should be put forth to give the Act a fair trial. The result was the passage of numerous amendments all designed to tighten the Act and close the loopholes through which the lawbreaker could escape and the bootlegger practice his many and devious devices.

By resolution the Legislature reaffirmed its position on the Customs tariff by demanding a general lowering of duties on article of prime necessity to the agricultural producer. Unquestionably there was much force in the contention of D. H. McDonald, of North Qu'Appelle, that, inasmuch as the tariff is subject to Federal jurisdiction and control exclusively, the Legislature was being outside its domain in passing upon it, and in taking such a stand he occupied sound constitutional ground. However, the tariff is no longer a partisan question in Saskatchewan, and is now regarded purely as an economic issue. As such the present Saskatchewan Legislature, like its predecessors, felt that it should, as the only body entitled to speak for the whole Province, officially declare its views inasmuch as the tariff undoubtedly has a direct and profound effect on the agricultural prosperity of the Province. The declaration for tariff reduction was, therefore, dealt with in the same spirit and from the same economic point of view as the demand for lower freight rates. Entrusted with promoting the welfare of the Province, the Legislature spoke the mind of the people on these questions.

Taken as a whole, the session was uneventful. An unusually large number of Bills were considered, but these, for the most part, were for the purpose of amending existing statutes as experience in their administration had demonstrated to be necessary. Unlike preceding sessions, there was no officially organized and recognized Opposition party. Nevertheless, there was close watch maintained upon all Government legislation, constructive criticism offered, and the necessary and effective spur provided to keep the Government careful in its handling of public business.

Special Train Touring Provinces

Child Welfare Nurse Accompanies Mixed Farming Special Train

A new feature has been added to the mixed farming special train now touring Alberta. The Public Health Department of the Alberta Government has sent a child welfare nurse of the department, to join the staff of lecturers on the train. This nurse will give lectures on child welfare work and will also examine children presented to her with respect to general physical condition. She will be prepared to discuss any matters of health which may be suggested by the audience on the train. The special train is now on its last meeting with wonderful success.

Healthy Liver Healthy Life

Your liver—healthy or clogged, active or sluggish—makes all the difference between a vigorous, cheerful life and one of languor, apathy and failure. Will Sell Church Valuables

Gems and Precious Metals in Russian Church Will Help Poor

The All-Russian central committee has decided to take over immediately the valuables in the churches of all creeds in Russia and sell them for the benefit of the famine sufferers. The value of the gold and silver candlesticks, the gold covered and jeweled icons, the chalices and servers involved is variously estimated but the weight of the precious metals and jewels alone is reported to total hundreds of millions of dollars.

Minard's Liniment for Disempower

Veteran War Horse Rings for Food

San Toy, 30-Year-Old Charger, Has New Trick

San Toy, a 30-year-old charger, veteran of two wars, was the hero of the hour when the inmates of the Home of Rest for Horses, Westcott Farm, Crickwood, had their annual feast.

That feast, by the way, consisted of carrots, apples, bread and other delicacies which "the friend of man" enjoys as much as his master, dough-putting and mince pies. It is the distinction of San Toy that he went through the whole of the South African war and never missed a day's duty. He was saved from a harsh fate at the close of the war, and is spending the evening of his days in comfort and idleness as a pensioner.

The latest trick of the old war horse is to ring a bell, placed outside his cell with a long cord attached, so summoning the groom to attend to his wants.

Sentenced to Death

No Appeal Possible

The death warrant was passed out every time a corn is treated with Putnam's Corn Extractor. It means the end of the corn. Putnam's lifts out the root and branch, and never fails. Refuse any substitute for Putnam's. 25c everywhere.

The world's daily consumption of coal has been reckoned at 1,200,000 tons.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have had during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to over-crowded, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep its stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

We shall have smiling friends as long as we keep still and let our money do the talking for us.

What This Buffalo Physician Has Done For Humanity

The picture which appears here of Dr. Pierce of Buffalo, N. Y., was taken in 1910. At a young man Dr. Pierce practiced medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood. This strength-builder is made from a formula of Dr. Pierce found most effective in diseases of the blood. It contains no alcohol and is an extract of thirty roots with the ingredients plainly stated on the wrapper. Good food, good sleep, and vigorous exercise to follow if you take this Alternative Extract. Dr. Pierce's Golden Medical Discovery clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear. This Discovery corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and purifies the blood. Write Dr. Pierce's Invalid Hotel in Buffalo, N. Y., and receive confidential medical advice without charge. All druggists sell Discovery tablets or liquid.

Canada Offers Advantages

Needs of Dominion for Increase in Population is Shown

Sir Augustus M. Nanton, of Windsor, speaking at a Canadian gathering in London, said that one of Canada's greatest needs was an increase of population. He regretted there was so little mutual trading between Canada and the United Kingdom, Canadian products, he said, came to the British Isles in very meagre quantities.

The action of the United States in increasing her tariff against Canada, said Sir Augustus, rendered the time never more opportune for Great Britain to capture Canadian trade. A suggestion that British manufacturers should establish themselves in Canada with branch plants from which to handle world trade was made by Sir Augustus. These plants would give some of Britain's unemployed population work in the healthiest climate, and this arrangement would, to some extent lighten the drain on British coal.

It was an error, said the speaker, to think that immigration would take care of itself. He hoped that the governments of both countries would work together to prevent the foreign element in Canada increasing by an undue percentage.

Sir Augustus said Canada ought to have adequate representation in London, with the staff their property housed.

When Your Appetite Fails This Is What You Need

When the very thought of eating makes you feel dizzy, when you're run down stomach in bad shape—your appetite fails. You need Dr. Hamilton's Pills. They tone up the liver, assist the stomach and improve digestion. The taste becomes aware of new flavors in food you never noticed before. You'll look and feel a whole lot better after using Dr. Hamilton's Pills. Many folks need this fine old remedy and nothing else and keep in the pink of condition all the time. 25c at all dealers, or The Celaroches Co., Montreal.

Canadian Goods Selling

Canada's export trade to Great Britain and Europe is slowly but steadily improving. Canadian canned salmon is moving again more freely at a firm price. Cheese is selling well. Canadian flour and grain have been selling much more freely in the London market than hitherto.

Minard's Liniment for Colds, Etc.

Our Comparative Prosperity

Duke of Devonshire Points to Absence Of Poor Law in Canada

Presiding at a conference of poor law guardians in London, the Duke of Devonshire, former governor-general of Canada, pointed out that there was no established poor law, as such, anywhere in Canada. He advised Canadian never to allow such a condition to grow up in their country that would justify the institution of poor law administration.

The Duke said that a considerable proportion of the population in Canada, owned their houses, and this contributed greatly to the welfare and prosperity of the Canadians.

Thackeray's Birthplace

Calcutta Has Memorial in Church of St. John

Calcutta gave England one of her greatest novelists for William Makepeace Thackeray was born there on July 18, 1811. The novelist's father was an Indian civil servant, as also had been his grandfather, and his mother was the daughter of yet another servant of the old John company. The city of Calcutta has not forgotten her famous son, and to celebrate his centenary ten years ago a memorial with an inscription from "Henry Esmond" was unveiled in the church of St. John, where he was baptized.—Manchester Guardian.

Cannot Discuss Gandhi's Demands

The India office issued an official communication indicating that it was the intention of the government to adopt stern measures to suppress the campaign of civil disobedience in India. It adds that no government could discuss the demands contained in the recent manifesto of Mahatma K. Gandhi, the Indian Nationalist leader.

Excellent for Croupy Children.—When a child is suffering with croup, a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm lying deeply rooted in the little trachea. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

50 cents buys a bottle of Danderine at any drug store. After one application you cannot get a particle of dandruff or a falling hair. Besides, every hair shows new life, vigor, brightness, more color and abundance.

Nice Nest Egg

Considerable Western Grain Still Held Over From Last Harvest

Western Canada still has a sixty-eight-million-dollar nest egg left over from the 1921 harvest, as the tally of grain stocks held in elevators west from the head of the lakes shows, in a recent analysis of the Board of Grain Commissioners. This takes no count of course of grain still held out by farmers, which is reaching, plug points very slowly. The approximate total value is \$68,032,262. In store at Fort William and Fort Arthur are \$1,659,326 of all grains, an increase in the week of 106,645.

"Imperial" Linotype "Imperial" Stereotype "Imperial" Intertype "Imperial" Monotype

From the very start "Imperial" type metals found favor with the leading newspapers of that time. That was because we recognized the peculiar quality of metal necessary and experimented until our results satisfied us. That it satisfied others is satisfying others is eloquently proven by the fact that 90 per cent. of the Printing Establishments in Canada are constant and regular users.

The Canada Metal Co., Limited WINNIPEG

Lloyd George Pays Tribute To Balfour For Conference Work

London.—Right Hon. Arthur J. Balfour was officially welcomed home from the Washington conference at a luncheon by the Government and Coalition members of both houses of parliament.

Mr. Lloyd George, presiding at the luncheon, paid a striking tribute to Mr. Balfour, saying that he had taken part in one of the most notable contributions statesmanship has ever made for the sum of human peace and happiness.

At the beginning of his address, Mr. Lloyd George said Mr. Balfour's friends wished to express admiration "for the way he behaved while away from home."

"We are prouder of him than ever," the premier continued. "The distinction and dexterity with which he handled the affairs of this country at Washington filled our hearts with real pride."

Mr. Lloyd George said that "statesmen who handle have missed their vocation; they should be horse dealers."

Alluding to the situation in the Far East, prior to the Washington conference, Mr. Lloyd George continued:

"I am not exaggerating the dangers. There were whispered rumors in the wind about preparations and projects about what might happen here and what would certainly happen there. Everywhere you had those rumors and suspicions. As a result of the Washington conference, my understandings have been removed and suspicions not nearly so completely cleared away. The Western sky is clear and I used to be taught as a boy that when the skies lifted in the west a bright day would follow. I believe the same thing will happen here again. Although the east is thick and dark with clouds, the west is clear and the east will follow."

"I am delighted," Mr. Lloyd George continued, "to thank the man who above all others helped to clear those skies. It was a notable achievement, and notable was the part Mr. Balfour took in it."

Farming Industry Is Backbone of Canada

Speakers at Toronto Strongly Emphasize Raising of Livestock

Toronto.—That the business of agriculture is the backbone of the Dominion of Canada, and the raising of livestock the principal verities in agriculture, was the sentiment strongly emphasized by speakers at the banquet here tendered to the visiting delegates to the livestock meetings by the Canadian National Exhibition Association. Incidentally, the event was also in celebration of the opening of the new million dollar livestock arena at the Canadian National Exhibition.

Premier Drury remarked that the livestock industry, like other industries, was passing through trying times. He urged livestock men of all classes to "stick to utility types and keep away from the fancy breeds."

The country needed most the grades of livestock that would best serve the production of milk, meat and wool.

Baltic Closed By Ice

Steamers Held Fast With 27 Passengers on Board

Stockholm.—The Baltic Sea has been converted into an isolated lake owing to the virtual closing of the Cattegat and the sound by ice. Five steamships, including the Thule from London, with 37 passengers, are held fast in the ice in a dangerous position off the Vinga Lighthouse.

London.—The closing of the Baltic by the ice will not interfere with American relief activities in Russia, according to American administration headquarters here.

"Immortals" Stumped
Paris.—The famous "Immortals" of the Académie Française, who are compiling the great French dictionary, have met a snag in the word "immortable," which means "incapable of being frozen." Is there anything that cannot be frozen, they want to know?

Should High Commissioner Have Title

London.—Regarding the speculations on the possibility of Peter C. Larkin, the new Canadian high commissioner, receiving a title, the Canadian Press learns from an authoritative source that there is no doubt such an honor would be readily extended if the Canadian Government decided to recommend Mr. Larkin. The initiative would rest with Canada. It is pointed out that the Canadian Government does not amend its stand on the question of titles. Mr. Larkin will be the only high commissioner in London without a title.

He Gained Twenty Pounds in a Year

That's Why This Man Praises Dodd's Kidney Pills

Mr. Carl Boutelle of Mason's Point After Four Years' Suffering Took the Advice of a Friend and Used Dodd's Kidney Pills.

Mason's Point, N.S.—(Special).—"When I started to use Dodd's Kidney Pills I was twenty-three years old and weighed 108 lbs. In one year I gained 20 lbs." This is the statement of Mr. Carl Boutelle, a well known and highly respected resident of this place. It is one more addition to the great mass of evidence that Dodd's Kidney Pills are the greatest of all kidney remedies.

"I was laid up for four years with kidney trouble," Mr. Boutelle states further: "One day a friend advised me to use Dodd's Kidney Pills, and I made up my mind to give them a trial. I used just six boxes in all." The road to health lies through the kidneys. If they are kept strong and well all the impurities are strained out of the blood, but if they are weak and out of order the impurities stay in the blood and disease is sure to result.

Ask your neighbors if Dodd's Kidney Pills do not make strong healthy kidneys.

Soil Drifting Problem

Wheat Growing Should Be Abandoned For Mixed Farming

Winnipeg.—Until farmers in districts where soil drifting is prevalent will abandon wheat growing to the exclusion of mixed farming, the task of keeping drains open will be almost impossible, and as a means of forcing a change in methods farmers should be charged with the expense of such repair work. H. A. Bowman, head of the reclamation department of the Provincial Government, stated in a statement presented to the minister of public works.

The report points out that under these conditions it is impossible to carry on repair work with horses, and no machine to do it has been invented.

Mr. Bowman also recommends legislation to control the load which can be carried on gravelled roads by motor trucks.

When Overtaken by Nausea Try This Simple Remedy

When you don't know whether it's going to stay down or come up, when you look like thirty years and feel even worse, what you need is twenty drops of Neville's in sweetened water. Almost like magic is the change you experience. Those feelings of vomiting disappear. Thousands of homes rely on Neville's in case of sour stomach, gas bloating, nausea and upset stomach conditions. Get it today, large life bottles sold by all dealers.

Uniforms Will Be Made In Ireland

Gray-Green Material For Soldiers of Free State

Belfast.—The uniforms of the Irish Free State soldiers will be entirely Irish made. They will be of a grey-green material. Large orders have been placed with the Irish Co-operative Clothing Manufacturing Society. A Drogheda factory is making material for coat linings; sleeve linings are being made in Cork, while the manufacture of buttons, a new Irish industry, is proceeding in Dublin. Shirts, socks and all other general equipment also will be wholly Irish products.

15,000 Cattle Killed
London.—The number of animals slaughtered in Great Britain as a result of the outbreak of foot and mouth disease totals to date 15,000 cattle, 3,000 sheep and 6,000 hogs.

CREDIT OFFERS TO FRANCE AND BELGIUM

Argentine Government Anxious For Closer Trade Relations

Buenos Aires.—Recent offers of credits by the Argentine Government to France and Belgium, for the purchase of Argentine produce, have been extended to all countries where Argentina has diplomatic representation.

A circular sent out by Foreign Minister Pueyrredon to the various legations, says that the Argentine Government being desirous of making closer all its relations with other nations, thereby putting into practice a policy of economic co-operation, desires that Argentina's representatives abroad should inform the governments to which they are accredited that the Argentine Government is willing to grant all kinds of facilities for buying Argentine meat, cereals, wool and other national produce which may be necessary for the sustenance and the manufacturing industries of other countries.

Persia to Have Air Mail Service

Will Save Fourteen Days Between Cairo and Bagdad

Washington.—Mails from the U.S. via Cairo to Bagdad and points in Northern Persia hereafter will be transported by aircraft under an agreement authorized by the U.S. post office department with British postal authorities. The new service will save 14 days or more between Cairo and Bagdad, the official announcement says, and the rate will be 15 cents an ounce additional expense to the postal rate.

Going After Trade

Riga, Latvia.—Soviet Russia is going after the trade of Nationalist Turkey. A Moscow radio dispatch says that the Kamalist Government has consented to the establishment of direct passenger and freight steamship lines from Russian Black Sea ports to Anatolia.

No Safety in Dugout

Arras, France.—A thief fleeing from gendarmes took refuge in an old British dugout near here. The police were just to go in after him when the dugout collapsed. The victim had to be dug out.

No Fluem Disorders

Rome.—President Zanolli of the Independent State of Fiume gave out an official communique characterizing recent reports of disorders there as without foundation.

WHICH IS SAFER, WEAPONS OR FRIENDS?

Women Preachers In Anglican Church

May Speak and Preach Except at Regular Services

London.—The lower house of the convocation of the province of Canterbury concurred in a resolution permitting qualified and approved women to speak and pray in meetings in consecrated buildings except at regular church services. The vote was 66 to 55.

A resolution which is identical to the Bishop of Ely's motion presented in the upper house in 1919 provoked vehement opposition. Speakers urged that if women are allowed to preach to mixed congregations it will be impossible to exclude them from the priesthood. They predicted that the church would be rent in twain and that there would be a great accession to the Roman community. Supporters of the motion contended that if women were not admitted to the church as speakers, that Methodists and Baptists would admit them.

The Dean of Ely amid laughter said it was impossible to silence women. They are already addressing meetings. What the upper house desired, he said, was concerted policy.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: Headaches, dizziness, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, dragging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

HEART AND NERVE PILLS.

Mrs. M. Damand, Young's Cove Road, N.B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price 50¢ a box. Sold by all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

For Return of Natural Resources

Planning Preliminaries for Appointment of Arbitration Board

Ottawa.—A dispatch to the Leader says that probabilities now point strongly to the appointment of a commission or arbitration board to make a full accounting as a preliminary to the return to the western provinces of their natural resources. The King Government readily concedes the equality of the western claims. The question, however, is one of terms. It will be necessary to value the lands which would be turned over and those which have been alienated and to ascertain what Federal administration has cost. Moreover, the subsidy question will come up for determination as to whether it should be continued to the full extent after the return of the resources. There are various other aspects of the case.

For Dairy Conference

Brookville, Ont.—J. A. Rudick, commissioner of dairying and cold storage, has called a conference at Ottawa for March 7 and 8 with representatives of the dairying industry to consider the act respecting the grading of cheese for export.

Grain Growers Will Enter Political Field In Saskatchewan

Should Take Broader View

Ottawa.—An appeal to Canadians outside of his own province to forget sectionalism and co-operate for the general good of the Dominion, was voiced at a Board of Trade luncheon by Premier John Oliver, of British Columbia.

He deplored the existence of a "narrow spirit of localism in Canada." Canada had resources which could not be properly developed except by wholehearted co-operation of all the provinces, Mr. Oliver claimed.

Shareholders Agree To Absorption

Willing to Accept Offer of Bank of Montreal

Montreal.—The Bank of Montreal shareholders at a meeting here ratified the proposition placed before them by the board of directors to take over the Merchants' Bank of Canada. The meeting also sanctioned an increase in the capital stock of the Bank of Montreal of not more than 60,000 shares, as may be necessary to enable the exchange to be carried out according to the terms of the purchase.

The Merchants' Bank shareholders voted to accept the offer of the Bank of Montreal last Wednesday. The Merchants' Bank was compelled to seek a purchaser when its reserve was impounded by the law.

The Bank of Montreal will give out shares of its stock for two of Merchants and \$10 a share for \$1,500,000. The deal requires only the sanction of the minister of finance to become complete.

Certificates Awarded In Radio Telegraphy

Two Vancouver Men Succeeded in Obtaining First-Class

Ottawa.—Six of the ten candidates who took the department of naval service January examinations in radio telegraphy were success in obtaining certificates of proficiency. Among the successful candidates who were awarded first-class certificates were A. Bader and S. C. Carpenter, Vancouver, while an "experimental" certificate was issued to W. D. Wood, of Vancouver.

Daylight Saving in Philadelphia

Philadelphia.—The daylight savings ordinance has been unanimously approved by the city council. The bill provides that all municipal clocks be turned ahead one hour at 2 a.m. the last Sunday in April and back again the last Sunday in September.

Norris Government Wins Out Over Its New Land Policy

Winnipeg.—So far from coming to grief over its new land policy, the Norris Government in the legislature won out with an ease that was not expected by even the most sanguine of supporters.

The Talbot amendment for special consideration for municipalities affected was thrown out by 37 to 6, and the Dixon amendment condemning the Government for its past policy of leniency in connection with contracts was defeated, 24 to 9.

The resolution proposed by Premier T. C. Norris provided for fore-

closure on lands in the event of arrears of principal and interest not being paid within six months. The Premier had previously stated, however, that cancellation in six months for arrears of principal would be drastic action, and he again suggested that the resolution should be modified in such a way that it would apply to arrears of interest only and that returned soldiers should be among these exempt.

John H. T. Johnston, attorney-general, moved an amendment giving effect to these changes, and the debate was adjourned.

That the Parliament of Canada should immediately re-establish the Board for the purpose of handling the 1922 crop of Canada, and future crops until normal conditions again prevail, and that the board should be under the direction of the chairman and vice-chairman of the original wheat board, further resolution was virtually unanimously accepted by the delegates.

General Lockout in Denmark

Nearly All Industries Affected and Situation Is Serious

Copenhagen.—A general lockout has been declared throughout all Denmark. It affects nearly all industries, including the harbor workers in most of the ports, but not the seamen. It is considered the biggest labor struggle in the history of the country.

The trouble began towards the end of January when the employers attempted to make a 20 per cent cut in wages with longer hours. The union lack funds, and as there are already 400,000 unemployed in Denmark, the situation is most serious.

The newspapers and public services are not affected by the lockout.

Obregon Putting Down Rebels

Mexico City.—The Iron hand of President Obregon, which has been used sparingly during the 14 months of his administration, is now effectively gripping the rebellions in Mexico, which in the past month have been more frequent than at any time since the last change of government.

Recently three generals met death at the hands of a firing squad, after having been convicted of rebellion. Eight other officers are held for court martial.

CANADIAN TIMBERS

OUTCLASS IMPORTED

The function of the Forest Products Laboratories of Canada is to examine all Canadian woods and other forest products, with a view of definitely appraising all their qualities of strength, toughness, hardness, etc.

The work has shown that some Canadian woods are stronger than woods imported at greater cost than that of the native product. Recently Mr. L. L. Brown, the lumber commissioner for British Columbia in Eastern Canada, discovered that a certain manufacturing company was using large quantities of imported red oak. He inquired why this wood was being used, when Douglas fir, a stronger wood, could be had down for less money. The superintendent of the works was disinclined to credit this and both gentlemen visited the Forest Products Laboratories, where a series of tests proved conclusively that the Canadian wood was the stronger. The result is that in this one case an importation of about \$150,000 worth of timber per year will cease, and British Columbia Douglas fir will take its place. The bulletin issued on this subject are the following: No. 59 "Canadian Woods for Structural Timbers"; No. 60 "Canadian Douglas Fir"; No. 71 "Canadian Sitka Spruce." Any or all of these bulletins may be had free upon application to the Director of Forestry, Ottawa.

YOUTHFUL MARRIAGES INCREASE IN U. S.

WASHINGTON—Sixteen hundred boys and 12,434 girls 15 years of age were listed as married in 1920 in the United States, the census bureau announced recently in a statement presenting a special analysis of marital statistics. Eighty-two boys and 409 girls of the same age were recorded as widowed or divorced.

The analysis revealed a distinct increase during recent years or since the 1910 census in the percentage of married persons for each year of age from 15 to 34, especially among the younger members of this group. The age group from 26 to 44 inclusive, showed an increase in the ratio of married persons in the decade, although less pronounced especially among the women, while the proportion for persons 45 years of age and older showed a decrease.

The statistics showed the number of single persons more than 50 years of age was 1,440,514, including 804,406 men and 636,108 women.

MEDICINE HAT MAN NEW GRAND MASTER

At the closing session of the I.O.O.F. Grand Lodge in Edmonton on Thursday last, the officers for the ensuing year were elected as follows:
Grand Master—E. L. Cope, of Medicine Hat.

Dep. Grand Master—L. J. Stuart, of Ponoka.
Grand Warden—Dr. J. L. McPherson, of Ryley.

Grand Secretary—O. E. Tidale, of Calgary (re-elected).

Grand Treasurer—George W. Henderson, of Calgary.

Grand Guardian—George Risson, of Cowley.

William Patterson, of Blairmore, was appointed on the standing judiciary committee.

Next year's grand lodge, will be held in Calgary.

The Bellevue band furnished good music at the arena last night.

New Hotel-Ready To Open

The new Greenhill hotel is now ready for business with Mr. John Porter, manager in charge. The appointments of the new house are exquisite and furnished particularly to meet the desires of the tourist. Very elaborate are the furnishings throughout and one only has to step inside to be immediately confronted with an air of comfort that is seldom found in an Alberta hostelry. Mr. Porter had a good many years of experience in catering to hotel trade, and in taking up duties here will do his utmost to cater satisfactorily to all, and will be pleased at any time to show you through the building and the annexed restaurant. The latter is across the street, immediately opposite the hotel, and is very nicely arranged. It is hoped to open both the hotel and restaurant the latter part of next week.

The appeal of Samuel Moore, of Coleman, who was some time ago charged under the Liquor Act with being in possession of intoxicating beer and who was fined out a fine together with an order for the confiscation of about a carload of beer, was heard last week and the confiscation order has been quashed and an order from the appeal judge issued for the return of the beer to Moore.

The Ladies' Aid of the Methodist church at Hillcrest will give a tea and sale of sewing on Saturday afternoon and evening. Many beautiful and useful articles may be had at this sale and the ladies usually serve a tempting cup of tea.

Thirty-four men were killed, eight injured seriously and three escaped uninjured when the giant army airship Roma with her crew and a number of civilians plunged from a thousand feet or more in the air to the ground at Hampton Roads naval base.

As part of the naval reduction policy of the British admiralty, the Newfoundland naval reserve, which has been in existence for a quarter of a century and which furnished two thousand seamen for the navy in the world war, is to be disbanded.

Dr. Scott, of Leslie, Saskatchewan, has received the appointment of doctor for the McGillivray Coal & Coke Co., at Coleman. Dr. and Mrs. Scott and little son will take up residence at Coleman about March 1st.

Dr. Alan Ross, formerly of Hillcrest, but now located in medical practice at Edmonton, is spending a few days with Dr. and Mrs. MacDonald at Hillcrest.

The town of Olds suffered from a fire on Main Street at an early hour yesterday morning, doing damage to the extent of about \$100,000.

Creamery Butter, 2 lbs for 75c. at Thompson's.

The Lethbridge Herald of yesterday carries another column of pure rot in its sporting page.

Calgary ladies hockey team defeated Fernie yesterday by a score of 2 to 1. The game was witnessed by about one thousand people.

One of the lumber camps closed this week and the men have gone to the prairies to look for employment.

A. W. Robbins has just put into commission No. 2 bus of the even-numbered line.

THE SALVATION ARMY

Meetings conducted in the L.O.O.F. hall every Sunday as follows:
11 a.m.—Holiness meeting.
2 p.m.—Sunday School.
7:30 p.m.—Great Salvation Meeting.
We believe all men may be saved. You are invited.
Captain R. Batterley and Lieut. W. Yarlott, Commanding Officers.

Card of Thanks

I wish, through the columns of The Enterprise, to tender my sincerest thanks to the many friends for assistance and various expressions of sympathy with me in my recent bereavement.

Judge Swanson, of Kamloops, grand master of the British Columbia Grand Lodge of the I.O.O.F., who had been in attendance at the Alberta Grand Lodge session at Edmonton, passed west through the Crow to Fernie on Saturday last and is visiting lodges in southeastern British Columbia before returning to Kamloops.

A Mount Vernon man has been found who walks nine miles to work every morning and back again every night to earn thirty cents an hour working on Brantford township relief work. An effort is being made to secure a bicycle for him. He starts off at 5 in the morning.

A TREE FOR A TREE

Some people think there should be a law to compel loggers to plant a tree for every tree cut down. As it is necessary to start five or six seedlings to secure one full grown forest tree, straight, tall and without limbs, such a law would not work. Besides, by the application of silvicultural methods, the forest engineer endeavours in many cases to coax nature to reforest cut-over tracts herself, and to plant only as a last resort. In view of these facts what the laws of some European countries do demand in regard to certain non-agricultural lands is: "Start an acre of young forest for every acre cut down."

In the report of the Fathers and Sons banquet a couple of weeks ago, it was reported that Mrs. Farmer responded to the toast "Mothers." This was an error and should have read Mrs. Foreman.

Blairmore Lodge, No. 68, meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: J. Patterson, N.G.; W. T. Patterson, V.G.; M. B. Hoffman, E.S.; J. B. Farmer, F.S.; J. Montalbet, Treasurer.

Crows' Nest Encampment No. 8, meets the second and fourth Wednesday of the month in the I.O.O.F. hall at 8 p.m. Officers for ensuing term: J. Patterson, C.P.; W. T. Patterson, S.W.; A. Morency, J.W.; W. Patterson, Scribe; J. Montalbet, Treasurer.

Crowfoot Rebekah Lodge, No. 69, meets the first and third Thursday of the month at 8 p.m. Officers: Sister Patterson, N.G.; Sister Fraser, V.G.; Sister Evans, R.S.; Sister Walker, F.S.; Sister Pinkney, Treas.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: F. Padgett, N.G.; H. Jepson, V.G.; H. Barless, R.S.; J. Wyatt, Treas.

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesday of the month. Officers: Sister Christie, N.G.; Sister Barless, V.G.; Sister F. Hallworth, R.S.; Sister Litherland, F.S.; Sister Goodwin, Treas.

Five hundred barrels, or one hundred thousand pounds of Scotch pack Newfoundland herring, were marketed Winnipeg recently by C. & W. Bartlett, brothers of the proprietor of this paper.

A little girl visited the local dentist the other day to have her "stomach" tooth pulled. After the performance she said she believed the dentist pulled the wrong tooth, for the root never reached her stomach.

Of Local Interest

S. Tronic is at his post this week, after a few days' illness.

A. McTeer, of Calgary, is spending a few days this week with his son Archie here.

Inspector Nicholson and family leave this week for their new home in Edmonton.

Mr. and Mrs. Collette, of West Blairmore, left here on Monday night on their return trip to France.

The June bride who used to kiss her husband good-bye every morning now yells "So long" from the kitchen.

A fine motto: "Live so you can pass any grocery store in town with a feeling that your bills are paid."

A girl across the way says it's easy enough to believe that there is a shortage of men, when you see what some girls get tied up to.

\$244,000 was collected in customs charges at Fernie last year—an increase of \$79,000 over 1920 business.

Two brothers, aged 24 and 25 years, died within twenty-four hours of influenza at Lunenburg, Nova Scotia. One of them had been married but three weeks.

An up-to-date magic lantern has just been purchased by the Fernie school board and will be utilized in the teaching of geography and nature study.

Only ten dollars was netted at a silver tea given by the Anglicans at Cranbrook last week. Most of the ladies present were Scotch descendants.

A woman lecturer in the east, giving lectures on "Canada's Untrained Citizens." An explanation of what makes them wild would be interesting.

Hon. Herbert Hoover, former food controller of the United States, has been offered \$50,000 a year for five years to act in the capacity of executive head of a United States exposition.

Lots of people are on the right track, but headed the wrong way.

F. M. Christophers, M. P. P., returned to Edmonton on Tuesday.

Those who have no taste for discipline, sacrifice or service had better remain single.

Baconham had the right idea about advertising. He took two columns and brought down the house.

The difficulty of getting a fire started on a cold morning causes us to wonder how buildings ever burn down.

They say that radium gives off particles of itself and yet never grows any less. Women's minds must be pure radium.

J. R. Smith, chief sales agent of the West Canadian Collieries, returned last week and from a business visit to Winnipeg and Calgary.

We had some eggs the other day which the waitress said were from the country. Next time we see that girl we're going to ask what country.—Ex.

The degree team of Anoka, Kebekah Lodge No. 21, Calgary, were successful contestants for the Dominion challenge cup at Edmonton last week. The team from Dominion Kebekah Lodge, Lethbridge, were losers by but half a point.

He had eaten a lamb chop at the King George cafe, which the waiter had recommended. When he had finished the waiter asked: "How you like the chop, sir?"

"By moving aside the two peas that were with it," replied K. L. V., the chop was under them!"

The time will come when an able bodied man who has the audacity, the presumption, to try to get all the good things out of the world and give nothing in return, will be looked upon as a monstrosity, an enemy to civilization, and will be ostracized by all decent people.

James Ford, town secretary of Coleman; George David Plunkett, of Pincher Creek; George Ritson, of Cowley; Alberta Joseph McKenzie, of Pincher Creek; and William J. Cole, of Bellevue, have been appointed justices of the peace in and for the Province of Alberta.

Effective from October 1st, 1921, postage rates are as follows: Canada, United States and Mexico, 3 cents for first ounce, 2 cents for each additional ounce; Great Britain and all other places within the Empire, 4 cents for first ounce and 3 cents for each additional ounce; other countries, 10 cents for first ounce and 5 cents for each additional ounce.

An exhibition game of hockey was staged by the Blairmore and Coleman league teams on Coleman ice on Monday night. The crowd was not as large as expected, owing somewhat to the almost impassable condition of the main highway between these towns. A good brand of hockey was displayed and Coleman won to the tune of 5 to 2.

James Crowder, of Blairmore; Joseph Emerson, of Coleman; Alfred Francis Grady, of Macleod; Albert F. Short, of Coleman; Alois I. Blais, of Frank; Cole Frank Sedgwick, of Lundbreck; James Harrington-Farmer, of Blairmore; Robert T. McNicholl, of Macleod; and James Edward Hittler, of municipal district of Robert Kerr, Pincher Creek, have been appointed commissioners for 1922.

Ole Olson, a Swede, awakened one morning with a strong desire to put in an easy day. He reported to the doctor, who looked him over, felt his pulse, took his temperature and said: "I can't find anything wrong with you." Ole did not answer. Impatient, the doctor said: "See here, what's wrong with you, anyway?" "Doc," replied Ole, "that bone your job!"

L. Dault is taking stock at his Three Hills Hardware.

The only man who will work to get into a hole is a golfer.

It beats all how a woman can get a trunkful of stuff into a suitcase.

Mr. and Mrs. Bird move into their new residence in West Blairmore this week.

The man who takes the law into his own hands soon finds it too hot to handle.

J. Joseph, of Hillcrest, is conducting a great sale of dry goods, ladies' gents' and children's furnishings, and fancy goods, commencing Saturday next February 25th, and continuing for two full weeks. Bargains galore are offered.

According to an eastern paper, an order has been received by a Nova Scotia firm from a leading Ontario distiller for a large quantity of peat, which is being used to give the smoky flavor to whiskey. That flavor is found by local "still" operators in the wash water used by whiskeyed disciples of the smoking evil.

The Enterprise was subjected to a small amount of criticism over its attitude towards the famous Liquor Act, and favorable comment for its support of the commission to enforce that Act in the Provincial House of Assembly on Thursday last. It was the only provincial newspaper brought directly to the notice of the house.

Seventy-nine degrees above was registered by the mercury in Blairmore on Sunday last. Twenty-four hours previous we were experiencing the most severe blizzard of the season with the thermometer hovering around six below. Still we have no kick coming. We have had an ideal winter—only about eight zero days, little snow and ideal sleighing for two months, while autos have been continually on the go.

Heredity

Two British farm laborers were discussing the wisdom of the present generation. Said the first: "We're wiser than our fathers was and they were wiser than their fathers was."

The second after pondering and gazing at his companion replied: "Well George, what a role thy grandfather must'a been!"

Great Britain In The Role Of Friend Unto Every Nation

The following article on Great Britain's foreign policy is taken from the Chicago News, and coming from an American source has an added significance.

British diplomacy of today is the precise opposite of American diplomacy. American diplomacy shrinks from making the United States the special friend of any foreign nation. British diplomacy might almost be said to jump at the chance of making Great Britain the special friend of every foreign nation all the way around the whole circle of the important nations of the world.

Who is the best and closest friend of Japan?—Great Britain. The Anglo-Japanese alliance is gone and whatever menace may have been leveled by that alliance at the United States is removed. But who can believe that in the future course of the eastern international affairs there will be any such spirit of historic cooperation and of mutually recognized territorial interests between Japan and the United States, or between Japan and France, as between Japan and Great Britain? The latter is the one white nation that has continuously befriended Japan in the twentieth century.

What foreign nation is also most readily expressive of special regard and respect for the United States? What foreign nation is most unreservedly devoted to public discussions of a special understanding or special accord of special agreement or bond of tie or link—or whatever word Americans may prefer—with the United States? Undoubtedly Great Britain. Washington may recall from London's advances. London gallantly continues them, and so to speak, sends how they every day.

What nation does most for France? The British may quarrel at times with the French; but what nation is the only nation that really in any degree is helpful to the French in collecting the indemnity from Germany?—Great Britain.

But what nation attacks us for Germany and says all the time that Germany cannot pay quite so much? What nation mitigates French wrath and tempers the French storm to the German lamb? Certainly not the United States; certainly not Japan. Italy does it a bit, but Italy is not strong. The strong shield of Germany when Germany is best on its down, too much is the country that bottled up the German fleet. Germany in the German hymn of hate hurls "one and all" against "Britain." Today it has one friend and one alone—Britain.

Finally, where does Russia find a helping hand? What great nation first makes a treaty with Soviet Russia? What nation proceeds to introduce Soviet Russia to respectability in international society? What nation has that hearty friend of the world—Great Britain?

It has sometimes been remarked that the diplomacy of a nation is to have a girl in every corner. Great Britain is a maritime nation. Its diplomacy at the present time is very maritime. What are those "girls"? A child could detect them. The British make no secret of their "girls." They are not "girls." They are perfectly forthright public efforts to be on good terms—and, if possible, on terms of mutual services and benefits—with every country importantly touching our treatment as a dominant life in the world, delicately balanced, web of British power throughout the world.

When the web was not threatened by modern waves of "self-determination" within the British Empire, Britain followed a policy of almost unflinching British rule follows a policy of splendid universality.

Lord Fairfax Wrote Scotch Girl. Lord Fairfax and Miss McKeivie, only daughter of James McKeivie, a wealthy Scotch coal operator, were married recently at the Church of St. James in Edinburgh. Lord Fairfax was born in America, but is a naturalized British subject. He is a descendant of a brother of the sixth Lord Fairfax who settled in the colony of Virginia on a grant of land received from his mother. A daughter of the sixth peer married the brother of George Washington.

Good Spending. No community can make itself poor by expending money on education. The expenditures of the city of New York are in the most true sense productive public work. Medicine Hat News.

The Dean of Exeter has had clocks placed in both pulpits of his cathedral to warn preachers to keep within reasonable limits. Associated Press.

Crops in the Yukon

Satisfactory Results Reported in Cereals and Vegetables

The experimental station at Sledge Creek in the Yukon is the most northerly of the Dominion Experimental Farms System. The facts to be gathered from a report made by the superintendent will draw attention to the capabilities of that country for farming and are particularly interesting on that account. Ten acres were seeded in 1912 with oats, peas and red clover. The oats and peas were cut for hay, but the red clover was left for ploughing under and was winter killed. In 1920 the same area gave heavy growth of oats and peas, and light growth of red clover, and a medium growth of sweet clover. A satisfactory yield of rye and buckwheat is recorded. Western rye grass also proved satisfactory. Graying results are expected for alfalfa and red clover. One fourth of an acre sown to each variety of wheat yielded 75 lbs. of Marquis, or at the rate of 50 bushels to the acre, 90 lbs. of Huron, at the rate of 60 bushels to the acre, and 55 lbs. of the rate of 40 bushels to the acre. The rate of 34 bushels to the acre, Victoria oats sown to the same extent yielded 90 lbs. or over 105 bushels to the acre and Banner oats 114 lbs. or 124 bushels and 4 lbs. to the acre. Peas yielded 25 lbs. or 34 bushels to the acre. Detroit beets, Jersey Wakefield and Copenhagen Market cabbages, Chautauque and Earliest Short Horn carrots, all varieties of celery, iceberg, Grand Rapids Forcing and C.R.P. lettuce, Double Cured Parsley, Thomas Saxton, Stratagem and English-Wagon peas, and Canadian Gem turnips all did well. Relative to the celery report states that it was probably as good as could be produced in any part of the world.

The Livestock Prospects

Livestock Market at Ottawa States That Branch is Becoming Steady. It is interesting to note from the weekly returns of the livestock branch at Ottawa that the year commenced with rather hopeful prospects, the demand being fairly brisk with prices generally, although below what they were last year. The market is inclined to show an upward tendency. Especially was this true of the market at Toronto, where sheep were quoted the second week of the year at \$14.50 compared with \$12 for the first week and \$13.50 for the corresponding week of last year. Cattle, calves and sheep all showed a rise for the second week compared with the first, but hogs, which were received in comparatively large numbers, manifested a little weakness. The prices at Toronto ran: Cattle \$9, calves \$14, hogs \$11.25, and sheep \$14.50; at Montreal, cattle \$7, calves \$12, hogs \$12 and sheep \$9.50; and at Winnipeg, cattle \$7.25, calves \$10, hogs \$9.50 and sheep \$12. These returns, however, branch, cover the markets at Toronto, Montreal, Winnipeg, Calgary, Edmonton, Prince Albert and Moose Jaw.

Water Power in Saskatchewan

Huge Amount of Power is Latent in Rivers of Province

Both Churchill and Rapid Rivers in Northern Saskatchewan have wonderful possibilities in the way of water power for the development of that enormous and scarcely explored hinterland. There is an estimated development of over 13,120,000 horse power available, according to the Dominion Water Powers Branch and part of the work of the Saskatchewan Government exploration party was the securing of photographs and a general description of the large power rivers in the northern portion of the province. An extensive area was covered by the party during the summer of 1921, and a valuable record secured.

With the timber resources of Saskatchewan situated mainly in the northern half of the province, water power will play an important part in the establishing of pulp and paper industries throughout the territory. The discovery of mineral deposits which are believed to exist, from surface indications, will also provide a further impetus for the development of the vast water power.

Woman Handling the Details

Practically all the details of the Commonwealth Hotel Construction Company, the great \$15,000,000 cooperative organization, which is building the world's largest hotel in New York City, is handled by a woman, Mrs. Laura B. Merrill.

By making your purchases from your "home" merchant, you are contributing to the welfare of the community in which you live.

Another Alarm

People Should Avoid the Heavy Sunday Dinner, Says Authority

The Sunday dinner has become so much an institution and vested interest that the "dinner" committee to rival the Sabbath as a social feature. The custom of having a better dinner on Sunday than on any other day of the week not improbably owes its origin and continuance to folk having more leisure on the rest day than on any work day. But the medical brotherhood has cast its baleful eye on the cherished institution of lush English-speaking peoples.

The London Times' medical editor, alluding to the Sunday dinner of John Bull solemnly warns him that, even more than on weekdays, he eats too much. Mr. Bull's dinner on the Sabbath generally comprises, says the Times, a solid "piece of resistance"—vegetables, pastry, cheese and alcoholic drinks. Such a dinner, saith the doctor, is for the "navy" or ditchdigger, but not for the man who leads after eating it. Medicine Hat News.

Do Your Planning

Now is a Good Time to Think of Spring Gardening

The jokers and paragraphers have a lot of fun out of the man who is now thumbing over the seed catalogues looking for his spring assortment. Never mind the jokes—just keep right on with the thumbing bushes. There may be quite a lot of cold weather, snow and ice, yet, but you can sit at the back window and pretty much picture what will take place when the sun moves a few notches back over the year. And if you have your plans all laid out you won't be the laughing stock of the community by dashing off to the nearest corner store on the 1st of May morning to buy a package of lettuce and one of onion seed—London Advertiser.

Canada's Coal Output

The coal output of Canada in 1921 is officially estimated by the government at 13,727,041 tons, compared with 15,921,477 in 1920, and 13,477,659 in 1919. Alberta again leads all other provinces with a production of 5,763,145 tons followed by Nova Scotia with 3,580,722, British Columbia, 2,992,856, Saskatchewan 301,167, New Brunswick 172,714.

Corn, America is Burning Will Save Starving Armenia

Burying the Body of Another Victim of Starvation in the Fields Near Alexandropol, Armenia—Caption: Paxton Hill's (Insert at top)

The first complete semi-official account of conditions in Transcaucasian Russia, contained in the report of the American Commission of Five members sent out by the Near East Relief and published in part in The Nation, has been made public in full. It states that in Armenia "conditions have been found shocking indeed far worse than present conditions in the Volga district of Russia."

"The immediate cause for the present acute famine situation in Armenia," the Commission goes on to state, "was the destruction of some 140 villages by the invading Turks, from which the populations were driven and when all basis of burden, agricultural and household implements and furniture were removed by the invaders. The evacuation of this portion of Armenia did not take place until April 21, 1921, 300,000 for any estimate crop to be put in. Even had the peasants the draught animals and the implements to plough and sow the ground."

According to this report there are "a rough total of about 400,000 homeless refugees in Armenia now facing winter without food." Of the 50,000 Armenians concentrated in cities and

Power of Radios

Vast Power Plant if Energy Could be Released

If you own a radio-dial watch with luminous figures and hands, then you are the possessor of a vast power plant of no mean proportions, says the Electrical Experimenter. There is sufficient radium on your watch dial to haul your train homeward, if it could be properly applied. As the matter stands the innocent looking radium dial does not seem to possess any extraordinary amount of concentrated energy, but this is only apparently the case and not actually so, for the reason that while the amount of activity manifested by the radium paint on the dial is small, this effect will keep up for 2,500 years, provided the same substance with which the radium is mixed so as to produce a glow, held out that long. The tiny radium is more cases given out in about eight or ten years. Now, if we could but find a way to make the radium release all its energy in a few hours instead of spreading it over 2,500 years, it would be difficult to make a motor that would utilize this energy.

An Old-Fashioned Notion

Relative Salaries and Length of Experience

Premier Greenfield says he doubts the wisdom of adopting a minimum salary of \$1,000 for teachers who are just beginning their work, and he insists on the view that salaries should depend upon length of experience and proven ability. He will be accused of reactionary tendency. The claim is being urged in these days that who ever holds down a job should draw a fixed and generous wage for doing so, regardless of experience and demonstrated fitness. The Premier's view is sensible, but that will not save him from a run in with the proponents of the "advanced" idea. Edmonton Bulletin.

Queer South African Coin

Shaped like a small horsehoe made of solid copper and used by natives of South Africa, a small coin treasured by a Canadian collector. The coin is said to be worth ten cents. Coins resembling it are in use in far northern districts of Nigeria, in Kano, a city in the north of Nigeria, and in Calabar in the Kamerun. Natives are said to carry their small change on a stick.

Swine Production Can Be Made Profitable For Prairie Farmers

The following statement on the swine situation, advocating a breed now on every farm, has been issued by the ministers of agriculture for three prairie provinces:

"Farming in the prairie provinces today has reached a condition which causes farmers to ask themselves: 'What can be grown profitably?' rather than to consider what they would like to grow. In this respect they are in the same predicament as farmers in almost any other part of the world. The consuming public has gone on a buying strike against expensive manufactured products. This decreased demand for goods has caused unprofitable and even lowered the purchasing power of all wage earners. The purchasing ability of our great markets for farm produce is further contracted because of the heavy war debts and the present economic situation. The question then is for our western farmers, 'What can we raise profitably?'

"It is no longer a question of how every acre possible in order to help the war, nor is there the detriment of a big price for grain. It is no longer a question of increasing our herds of cattle in order to meet the war demand from stock depleted countries which unfortunately are unable to buy our animals but it is emphatically a question of growing anything, whether grain or livestock, which will pay for the cost of production and leave a little surplus for the producer to pay debts or replace worn-out equipment. In other words, it is no longer the ambition of the farmer to make a fortune, but the average man considers himself lucky if he is making a living. Where there is water and shelter and feed, a few milk cows, a flock of hens, and a little or two of pigs per annum, will help to pay the operating expenses of the farm and insure food and clothing and fuel, while in the good years, when nature produces a surplus of grain or other crops, the revenue from the sale of the surplus is a convenient surplus for capital requirements."

"All one-crop countries are unbalanced and unreliable. Fruit producing districts or cotton districts, their problems as well as grain growing, suffer from the same causes. The farmer who grows his own food, the less will their expenses and worries be, and the greater their assurance of comfort and healthfulness. According to the census more than 60,000 farmers in the prairie provinces had no milk cows, nearly as many had no poultry, while over 85,000 had no pigs. There were 215,000 farmers in the three provinces. It is surely a strange kind of farming that requires the buying of butter, eggs, canned milk and vegetables and packed cured bacon and meats—things which can, and should be, produced on the farm. Agriculture will not come into its own until this condition ceases to exist."

"During the past season no branch of farming has brought any better return than a few pigs it raised economically and at a minimum expense. Swine prices are lower than they were a year or two ago. They are probably higher than they will be a year hence, but if a litter of pigs consumes on the farm materials which would otherwise be wasted, and is sold profitably than as pork, then swine raising conditions swine production is both profitable and desirable."

"Farmers will be interested to know that a system of grading hogs was recently decided upon by representatives of producers and packers, and the Federal Department of Agriculture (which brought about the conference) has agreed to provide inspectors and to have an origin established within six or eight months so that our farmers who will have pigs for sale next fall will be sure of the grading service being in operation by that time. In addition to a system of grading, it has been agreed by the packers to give a premium on select bacon hogs weighing 160 to 210 pounds as compared with the thick, smooth hogs of the same weight which do not make so acceptable bacon."

"We unhesitatingly recommend moderate production of hogs. We believe that we can probably double the present production of hogs in Western Canada. We believe that Canada can produce a quality of bacon equal to the best produced by any country. We know that bacon can be shipped to Europe more economically than livestock. We know that it is not excised by embargoes from the British market, as we expect our exports of this commodity will increase as the years go by."

"We have not been in the habit of raising too much advice to our farmers to be able to supply information to be able to supply information

upon agricultural questions when our farmers ask for it. We believe, however, that the present time is opportune for issuing an announcement of this nature and of recommending greater attention to the production of swine. Our Agricultural Colleges and Experimental Farms have bulletins regarding swine raising and other questions which will gladly be furnished to any interested parties upon request. The swine breeding season for the prairie provinces is drawing near, and steps to procure breeding stock can now be most easily taken. We make, therefore, not a foolish plea for unlinked hog production, but for the farmer and the farm can conveniently and profitably produce a brood sow on every farm. By doing this and other things to make our farms produce as many as possible of the things which our families and the public will be made more profitable."

Coast Salmon in Great Lakes

Steelhead Salmon Has Been Caught in Lake Huron

"An exceedingly interesting story surrounds the discovery of steelhead salmon in the Great Lakes. This species is indigenous to the Pacific coast of North America, and in inferior waters contributes an interesting point in the long-standing dispute as to the relationship between rainbow trout and steelhead salmon. For some time the authorities of the State of Michigan have been releasing rainbow trout fry in rivers and streams entering Lake Michigan. Only a few months ago a species of salmon was caught in the neighborhood of Whitefish Island, Georgian Bay, which, upon examination, proved to be the true steelhead of the Pacific. The flesh of the species in its native waters is pink, while in this case it was nearly pure white, due to the fact that it had never fed on fresh water."

For a long time scientists have been in controversy as to whether the rainbow trout and steelhead salmon were one and the same or merely closely related species. It now appears no other way of accounting for the presence of the steelhead in the lakes except that they developed from the rainbow trout eggs artificially matured and released in Michigan."

Future Of Horse Breeding

Best Money is in Heavy Working Class Horses

The success of future horse breeding lies in the production of high grade, heavy working horses, of which the prairie provinces of Canada are the world show a decided shortage. This was the point emphasized in an address by Professor W. J. Rutherford, dean of the Agricultural Faculty, at the University of Saskatchewan, made before members of the Saskatchewan Clydesdale Club.

Meeting of the Saskatchewan Percheron Club and the Saskatchewan Belgian Club were other important events in the series of horse breeding conferences preliminary to the next meeting of the Saskatchewan Horse Breeders' Association.

Dean Rutherford at the outset of his address to the Clydesdale Club, pointed out the desirability of the complements of the past year. He also referred to the fine prospects for the future.

The club, he felt, was following the right line in placing emphasis on the marketing end of horse breeding. The production of high grade geldings was, in his opinion, the most important branch of the industry at the present time. "It will be a long time before there will be a surplus in the open market of good geldings," he said. "This class of horse is vitally important to farming operations, and I consider that most of the agriculturists on the prairie at the present time are short of horses of which good use can be put by production on a greater scale of this class of animal."

Many of the horses now being employed in farm work were not big enough for food money. It was with the prairie of the club to act in this regard to the horse breeding at home. Good markets would undoubtedly be available if the heavy horse, particularly scrub stock, could be eliminated.

Lloyd George's Husbandry

Lloyd George, notwithstanding the war and fear of tremendous debt, retains splendid health, cheerfulness and good humor. The Premier has had 20 years of the most strenuous life he has accomplished what no other man could do but inasmuch as he is not inspired by personal selfishness his success does not "burn up" his nerves. Toledo News.

A NEW FOREST INDUSTRY

In these days of lowered prices for farm products anything which gives a farmer another crop is of importance. At the request of the British Forestry Commission, which bears the expense, the Forestry Branch of the Department of the Interior is collecting the seeds of Douglas fir, Sitka spruce, and some other trees of the Pacific coast to be shipped to Great Britain to be used in reforesting denuded areas there. The Forestry Branch has erected a seed-extracting plant in New Westminster, B.C., and the collection of the seed is done largely by farmers, in the newer settled districts near the city, who bring in the cones to New Westminster market. It seems rather odd to see some farmers coming to market with sacks of cones instead of sacks of potatoes and apples but as the farmers receive \$2 per sack for the cones, and as the Forestry Branch thus secures the seed required at a reasonable rate the innovation is considered most satisfactory to all concerned.

SOWLEY HAPPENINGS

Arthur Wright has gone to Calgary to take a course in a motor school.

Mrs. Harvey Bouthillier has returned from a business visit to Lethbridge.

Miss Margaret McDowell, of Beaver Mines, is the guest of Mrs. Bunting.

Miss Doris Ryan has returned to her home in Hillcrest after a visit here with her sister, Mrs. Lehigh.

The Misses Margaret and Annie Kemmis have returned home from a few days' visit with friends and relatives in Pincher Creek.

R. Carruthers, of Foremost, has arrived to fill the vacancy on the Union bank staff, caused by the removal of A. C. Snyder to Blairmore.

The dance given here on Thursday last by the Clarendon orchestra was very well attended, considering the bad roads and the gripe epidemic.

George Ritson has returned from Edmonton, where he has been attending the Oddfellows' convention as a delegate from the local lodge. We notice with pleasure George's appointment as grand guardian of the grand lodge.

The annual ratepayers' meeting of the Municipal District of Livingstone No. 70 was held in Cowley on Monday, February 20th, to consider the financial report for the past year and other business which might be brought up. Considerable discussion took place over advisability of supplying seed grain this season and the matter was undecided. Nominations for three councillors resulted in the re-election of acclamation of Reeve J. A. McLean and Councillor R. Lynch-Staunton. Councillor J. Hewitt is opposed by K. D. Crawford in Division 5. Election in one week.

SPANK THE "FLAPPERS"

Joseph Muller, of Chicago, isn't exactly puritanical, you understand; but he does want his daughter Ethel to be simply his daughter and not a "flapper," as he says she is trying to be.

Joseph was haled into court to answer charges of hitting his daughter on the nose. She exhibited the damaged nose to prove it.

"It's true, judge," said the father. "But believe me, as a father I could not help it. First she throws away her good shoes and gets those rubber boots that flop around. Then she comes home with her hair cut off. I don't like it, but my daughter says to shut up, that she is being a flapper like the other girls. Well, I could not stand that, so yesterday I came home and found her pulling her eyebrows out, saying that all the flappers are doing it. Then, judge, I punched her on the nose."

Judge Samuel H. Trude sympathized with the father, saying: "But now or hit on the nose again. Turn her over and spank her!"

WEEKLY NEWS BULLETIN

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

Considerable success attended the series of poultry meetings which were held in the southern part of the province, under the auspices of the department of agriculture. Lecturers report that never before have the farmers taken such a keen interest in the poultry industry.

A bulletin will shortly be ready for distribution by the department of agriculture on "Building up a Dairy Herd." The bulletin on silos is now ready for distribution.

It has been announced by Attorney General Brodie that Sgt. J. J. Nicholson, of the Provincial Police, formerly stationed at Blairmore, has been appointed to take charge of the policing under the Liquor Act, under the general direction of Commissioner Cuddy. Announcement will shortly be made also of the appointment of a man to have charge of the administration of the Act, under the direction of the Attorney General.

A delegation representing the Moderation League of the province waited on the cabinet on Wednesday with the request for moderation of the prohibition laws.

A delegation from sportsmen of the province has presented a request to the Minister of Agriculture to have the seasons for prairie chicken and Hungarian partridge open simultaneously on Oct. 1, and that the partridge season be open until the end of October.

A delegation which awaited upon Peria Baker, minister of education, Thursday, asked for consideration for adult blind of the province, of whom it was stated there were 275 now in Alberta. The delegation urged the government to provide a grant to the provincial branch of the Canadian Institute for the Blind.

Rapid growth of school districts in the province is shown by the fact that the minister of education during the past week signed the order for the organization of District No. 401.

Figures and statements contained in the annual report of the department of municipal affairs of the provincial government show the phenomenal growth of that department in the past ten years. This report was tabled in the legislature Thursday afternoon by Hon. R. G. Reid, minister of health and municipal affairs.

In 1912 the acts under the jurisdiction of the department numbered only four, while in 1921 the department had the administration of no less than 19 acts, besides certain work conducted with respect to other acts.

Reference is also made in the report to the excellent work done by H. M. Martin, commissioner, regarding subdivided properties in adjusting difficulties arising out of subdivisions which have not been able to bear the burden of taxes levied upon them. Mr. Martin has considered applications from the municipalities of Athabasca, Grumont, Hardisty, Castor, Munson, Clarendon, Woodford, Macleod, Clear Lake, Parkland S.D., Red Deer, and Pine Lake.

The report also contains a summary of the work done by the municipal finances commission, which includes Chief Justice Harvey, Justices Beck and Hyndman and Mr. H. M. E. Evans. This commission has been considering the financial condition of Town and S. D. of Beverly, Town of Macleod, Village and S. D. of Holden, Tolfield, Athabasca, Bassano, Rodell, Wainwright, Wetaskiwin. In several cases the programmes for the year for the places involved were passed upon by the commission.

The report also contains detailed statements of assessment and taxes collected in the towns and municipal districts.

A great deal of work was accomplished during the year in the way of propaganda for accident prevention and first aid work. It is also pointed out in the report that eye accidents were numerous and as a result safety guards on emery wheels and such like have been installed. Further regulation for the public in theatres, and for stage hands and motion picture operators have also been inaugurated during the year.

Classes were held at many points during the year in first aid work, 25 of these having been completed, and 8 of which are still to be completed. The candidates attending these classes totalled 694 males and 186 females, while 419 males have qualified in the various examinations and 29 females have qualified.

Announcement is made by the Hon. Geo. Hoadley, minister of agriculture, of the intention to close two or three of the demonstration farms retaining only sufficient area in these for experimental plots. This is in line with the policy of the minister of agriculture to extend the system of district agricultural agents, who will visit the farmers on their own farms and give them practical advice on the problems they face.

There were 1106 students registered at the University of Alberta during 1921, according to the annual report of the governors of the university laid on the table of the legislature last week by Hon. Morris Baker, minister of education. These were distributed in various schools and faculties as follows: Arts and science 385, applied science 67, law 75, medicine 141, agriculture 47, professional short course in dairying 30, agriculture for S.C.R. 11, pharmacy 43, dentistry 40, correspondence 40, graduate courses 73, combined courses B. A., L.L.B. 68, B.A., M.D. 22, B.A., B.Sc. in arts 1, B.A., B.Sc. in applied science 19, B.A., B.S.A. 3, Public health nurses 15, household economics 24. According to nationality, the registrants are divided as follows: British 813, of which 634 are Canadian, and 137 in Alberta, United States 147, other countries 47, not mentioned 98.

During the year two scholarships were given to the University of \$150 each, one by a returned soldier of Calgary and the other by P. Burns. Arrangements were also completed with the Rockefeller foundation by which a gift of \$25,000 was secured for the faculty of medicine.

WORKMEN'S COMPENSATION ACT

The cost of administration of the Workmen's Compensation Act for the year 1920 was \$49,666. Salaries paid under the act were: John T. Stirling, \$3000 salary and \$557 expenses; F. McNeill, \$5,700 salary and \$1,553 expenses; J. A. Kinney, \$4,666 salary and \$984 expenses. Mr. Stirling, in addition, received a salary of \$3,600 and \$110 expenses as chief inspector of mines.

This information was drawn out through a question asked by an independent-labor member, who questioned why J. T. Stirling should be holding down two fat salaries.

Twenty-one fatal accidents occurred in coal mines during the year. One accident resulted in permanent disability and test in permanent partial disability.

There were 8681 persons in and around coal mines of the province coming under the provisions of the Compensation Act, and claims paid out to persons injured amounted to \$117,677 for non-fatal accidents, and \$94,009 for fatal accidents through the pensions board, \$5154 to claimants.

The total amount paid into the Compensation fund by the coal mining companies was \$304,373 during 1921. This amounts to 5 1/2 cents per ton on the coal mined in the province. During the year 277 prosecutions were taken under the act and 261 convictions secured.

IN THE LEGISLATURE

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

Debate on speech from the throne was brought to a conclusion Tuesday afternoon in the legislature, and the usual motion of acceptance was passed without division. Speakers in the debate totalled 17 from the government side, seven from the opposition and four from the independent section.

The resolution introduced by Hon. Geo. Hoadley, urging again upon the dominion government the return of the natural resources to the province was passed in the house Tuesday afternoon without division.

M. C. McKeen, member for Lac Ste. Anne, was elected deputy speaker of the house.

E. Sparks, member for Wetaskiwin, during the week introduced a bill urging the dominion government to make a revaluation of farm stock and equipment held by soldiers on land under the soldiers' settlement board, and that indebtedness of the soldier to the board be fixed on a new basis, but this resolution was later withdrawn.

On Monday, Feb. 20, Alex. Moore and J. R. Love, introduced a resolution to the effect that the Premier should not consider the defeat of the government on any government measure or motion, a sufficient reason for resignation, save where followed by a vote of no confidence. A similar resolution was introduced last year by W. M. Davidson and J. G. Turgeon but ruled out of order by Speaker Pringle.

Premier Greenfield has announced that the budget will be brought down on February 27th.

In answer to questions in the house Premier Greenfield stated that the net bonded indebtedness of the province at Feb. 7th was \$38,827,935. The gross indebtedness is \$63,236,856.

The net revenue from transactions in liquor during 1921 was \$250,000, with a total turnover of \$571,826.

The first act to pass the house was that to amend the municipal district act. As stated previously, the effect of the amendments is to discontinue the qualification as to payment of taxes for voters in elections in town and village and rural municipality elections. The bill was introduced by Hon. G. H. Reid.

Bills receiving second reading or introduced for first reading during the week, included the following:

The highways bill, which, as has been explained, establishes a highways commissioner and good roads board, classifies highways and provides the cost of same. There are four classifications, main highways, market roads, local roads, colonization roads. Costs of the main highway shall be borne by the province, cost of market roads shall be borne by the local authority in whose area the market road runs. Cost of local roads shall be borne by local authority. Cost of colonization road shall be borne by the province. This bill was introduced by Hon. Alex. Ross.

Minimum wage bill for women.—This bill provides a minimum wage board in the matter of establishing minimum wages for female workers, and for apprentices. The board is to consist of one representative of employers, one representing the employees and one representing the province at large. This bill was introduced by Hon. Mrs. Farby.

United Irrigation Bill.—To provide for guarantee of bonds of the United Irrigation Project, near Cardston, to the amount of \$645,000. The project is to irrigate 22,000 acres. The bill was introduced by Hon. Mr. Smith.

The Pests Act.—This is an act to provide for the extermination of pests by making it compulsory on the part of the farmers to take measures to exterminate pests on their farms,

falling which provision is made for the work to be done and charged to them. The bill was introduced by Hon. Geo. Hoadley.

Acts to amend the irrigation districts Acts and drainage act have also been introduced by Hon. Mr. Smith. Certain of these amendments provide against anyone being a member of an irrigation district board who holds a contract, directly or indirectly from the board, or who acts as surety agent for any officer of the board or who has been convicted of a crime with more than two years punishment.

An act which has been introduced by Hon. G. Hoadley, provides for the regulation of commission merchants in the province, who sell agricultural products, except milk, cream and grain and except livestock sold in a public stockyard. The bill provides for a license fee of \$10 annually and a bond of \$2,000 for each commission merchant. Penalties under the act hold a maximum fine of \$1,000 and imprisonment for one year.

Assent was given on Friday afternoon by the lieutenant governor to two bills, the amendments to the municipal district act and the hospital districts act. The amendments to three acts eliminate the necessity of payment of taxes as a qualification for voting at annual elections. This will apply to towns and villages and municipal districts, the haste in getting bills passed being necessitated by the fact that rural elections are on February 27th.

"Raw From Eczeema Doctors Do Their Best"

"Twenty years I suffered. One day my face was so badly raw that I could not look at myself. I tried all kinds of doctors but they did me no good. I was told to use D.D.D. and I did. It was D.D.D. that cured me, and for that I am a grateful man. I have a bottle of D.D.D. in my house now."

Rolled Oats 5 lb sacks, 35c. at Thompson's

H. D. Gerry, auctioneer, of Cowley, was in town on Saturday last.

The total losses of the Merchants Bank are estimated at \$12,298,000.

A town is just what its residents make it—nothing more, nothing less.

We have been told that the reason whiskey is called "Scotch" is because it tends to make a man tight.

Job printers in Quebec city are in strike and it is quite likely that newspaper printers will walk out also.

P. M. Christophers, M. P. P., came down from Edmonton to spend the week and with his family.

Two rinks from Blaimore journeyed to Fernie on Wednesday, where they took part in a curling tournament.

A slight accident happened to a miner at Greenhill on Saturday last. The man is now a patient in hospital.

James E. Crawford, alleged to have robbed a bank at Edmonton on February 17th, was straitened at a Vancouver hotel on Monday.

Mar Foy expects to move into his new quarters on Victoria street towards the end of next week.

A Lethbridge mine operator claims that miners' wages have increased 127 per cent in the last seventeen years.

The post-office and drug store and postmaster's residence at Natal were destroyed by fire at an early hour on Sunday morning.

W. Patterson and Alex. Morney returned last week end from Edmonton, where they had been as delegates to the Grand Lodge and Grand Encampment, respectively, of the I. O. O. F.

The public health department of the province reports that influenza is spreading in eastern Canada and warns the people to take the proper care of themselves and if they are sick to go to bed immediately and call in a doctor.

Mary Miles Minter and Mable Normand movie pictures have been barred from showing in town in Massachusetts, owing to their being involved in the mystery surrounding the death of William Taylor, movie director.

"Fred, dear, why are some women called amazons?"

"Well, my dear, you remember our geographers said the Amazon had the largest mouth—"

"Needless to say, she went out and slammed the door before he could say any more."

"Charlie" Harris, prominent lawyer of Lethbridge, paid a fine and costs on Saturday last for operating an auto without having affixed thereon a 1922 license number plate. Some say that if Emperor Pick had acted as solicitor for his defence, Harris would have saved that fine of one buck.

Manager Lewis and Mr. Esdale, of the Lethbridge hockey team, were in town on Sunday to meet the League executive with the protest against the Bellevue-Lethbridge decision at Blaimore. They returned home Sunday night, the protest having been thrown out.

Rev. D. K. Allan, of Coleman, attended the Presbytery meeting at Lethbridge this week.

The only man who will work to get into a hole is a golfer.

Mr. Ambrose, of Pincher Creek, was in town yesterday.

Gwilym Evans is confined to his home with a crippled foot.

Faith may remove mountains, but it takes something stronger to remove freckles.

The woman who dresses better than her friends will never be popular with them.

A novel pericope enables an automobile driver from his seat to examine all the tires of his car.

A great many men reason in a circle. That's why there is no end to their arguments.

Wheat jumped 64 cents last week and flour also went up 50 cents a barrel in Montreal.

It is likely that Charles Stewart will stand for election in Argenteuil county, Quebec.

The first degree was exemplified at the regular meeting of Blaimore Lodge, I. O. O. F., on Tuesday night.

The members of the local Rebekah Lodge are holding a whist drive and social at the hall to night.

It is expected the new Greenhill hotel will be opened up within a week. Mr. Porter, the new manager, is now in town.

Mrs. Walter Howe, senior, is spending a month at Lethbridge with her daughter, Mrs. Tim Massey.

Energy will do anything that can be done in this world. No talents, no circumstances, no opportunities will make a two-legged animal a man without it.

Mr. May, of Calgary, has accepted the position of assessor for the town and school district of Blaimore and entered upon the work this week.

Hon. Duncan Marshall has been appointed commissioner for agriculture to the Federal government at a salary of \$5,000 per year.

Misses Olga and Annie Belecky leave for Pincher Creek today, where they will enter the convent for a term. They are accompanied by their father.

The miners of Cape Breton and the mainland have rejected the findings of the Gillen board of arbitration by a vote of something like six thousand against 229.

J. Joseph, of Hillcrest, is conducting a great sale of dry goods, ladies', gent's and children's furnishings, and fancy goods, commencing Saturday next February 25th, and continuing for two full weeks. Bargains galore are offered.

CAR OWNERS—We sell nothing but high-test gasoline at 55 cents per gallon—gives more pep, less carbon and saves your battery.—Sold only by W. M. BUSH, the Vulcanizer, Victoria Street, East End.

When the train arrived at Blaimore station in the snow storm of Saturday morning the engineer kept the whistle tooting. When a human being gets on a foot he or she is apprehended by the police and locked up, but when an engine gets on a 'foot' it is unmoosted.

AUTO PAINTING—We have started turning out painting jobs. First class work guaranteed. Call at our paint shop, south side of track, opposite Thompson's Grocery, and inspect our work.—W. M. Bush & G. J. Berlin.

Jack MacDonald, who for four years has been operating a locomotive at Hillcrest, has returned to his old home at Sydney, Nova Scotia.

Lots of people are on the right track, but headed the wrong way.

IS FOREIGN TO IDEAS OF COLONY

Friends in Cowley of the Doukhobor colony in the Cowley and Lundbreck districts, cannot explain the astounding report from Vancouver carried in the daily press stating that Peter Veregin, recognized head of the Christian Community of Universal Brotherhood, had announced a contemplated slaughter of children, aged and infirm members of the colony in order that the rest might roam about as vagrants. The only explanation that can be given is that Veregin, who has been in Lethbridge often, is losing his mind.

Leaders of the Cowley Brotherhood could not be reached today, but a resident of Cowley, who knows the people very well, said over long distance phone this morning that the report was unthinkable and positively foreign to the intentions of the Cowley Brotherhood, so far as he was

aware. In the foothills country, the Doukhobors have developed large stretches of land, built houses, barns, slaughter, etc., established flour mills, irrigation systems, and accomplished other development schemes, with marked success. They have always appeared to be a quiet, law-abiding people.

Seventy-nine degrees above was registered by the mercury in Blaimore on Sunday last. Twenty-four hours previous we were experiencing the most severe blizzard of the season with the thermometer hovering around six below. Still we have had no kick coming. We have had an ideal winter—only about eight zero days, little snow and ideal sleighing for two months, while autos have been continually on the go.

The man who takes the law into his own hands soon finds it too hot to handle.
